The Finnish line: Testing less, learning more and scoring higher. What can Finland teach us?

Pasi Sahlberg, who has worked as teacher, teacher-educator, policy advisor and director in Finland and served the World Bank and the European Commission as an education specialist, will discuss Finland's educational journey with Annie Kidder. Schools based on gender, race or special interest are a hot topic of debate. Once the rhetoric is put aside, is there convincing research behind either side's arguments? What evidence is there that specialty schools are better for students? What evidence is there that they create greater inequities among students or increase social divides?

- Rick Salutin, Columnist, teacher

Change is a necessary and sometimes difficult part of growing up. This workshop will focus on ways to ease the transitions from early years to Kindergarten, elementary school to high school and high school to post-secondary life.

There's a new minority government in Queen's Park facing the same old issues in education plus a handful of new ones. What should they do? What can they do? What will they do? PLENARY PANEL: WHAT MAKES A GREAT TEACHER?

1:15 p.m.–2:15 p.m.

Hosted by Cheryl Jackson (TVOParents) and livestreamed on the TVOParents website (<http://tvoparents.tv.org>)

Is education simply the delivery of information? If it is, then won't the teacher's role in the classroom diminish as the role of technology increases? Or is going to school about more than learning the facts? Does it include things like learning to make friends, trying new things, thinking on one's own, being a team player, navigating an argument, asking good questions, respecting others and being a better citizen? If teaching is about more than information delivery, how should we define this most important job? And how should we train our teachers and support them?

- Dr. Ben Levin, Professor, Ontario Institute for Studies in Education at the University of Toronto
- Lucy Nathan, Teacher, Toronto District School Board
- Dr. Dennis Shirley, Professor, Lynch School of Education, Boston College
- Tim Workman, Interim Director, Advanced Learning and Technology, University of New Brunswick

What role does fundraising play in public schools? Is it an educational enhancement? A necessary evil? An unacceptable inequity? If fundraising is banned, what would we lose and what would we gain?

- Lesley Johnston, Researcher and Policy Analyst, Social Planning Toronto
- Catherine Parsonage, Executive Director & CEO of the Toronto Foundation for Student Success (TFSS)

2. Parent Involvement Committees: From mandate to action plan.
