THE ANNUAL REPORT ON ONTARIO’S PUBLICLY FUNDED SCHOOLS 2016
NOTICE OF COPYRIGHT
AND INTELLECTUAL PROPERTY

The People for Education tracking survey was developed by
People for Education and the Metro Parent Network, in consulta-
tion with parents and parent groups across Ontario. People for
Education owns the copyright on all intellectual property that is
part of this project.

Use of any questions contained in the survey, or any of the
intellectual property developed to support administration of the
survey, is strictly prohibited without the express written permis-
sion of People for Education.

Questions about the use of intellectual property should be
addressed to the Research Director, People for Education, at
416-534-0100 or info@peopleforeducation.ca.

DATA FROM THE SURVEY

Specific research data from the survey can be provided for a
fee. Elementary school data have been collected since 1997, and
secondary school data have been collected since 2000. Please
contact info@peopleforeduction.ca.

ACKNOWLEDGEMENTS

People for Education is supported by thousands of individual donors, and the work and dedication of hundreds of volunteers. We also receive support from the Atkinson Foundation, the Counselling Foundation of Canada, the Higher Education Quality Council of Ontario, the McConnell Foundation, the R. Howard Webster Foundation, and the Ontario Ministry of Education.

Every year, principals in schools across Ontario take the time to complete our survey and share their stories with us. And every year, many volunteer researchers help us put the data we collect from schools into a context that helps us write our reports.

In particular, we thank:

Sophia Ali
Sarah Cannon
Anelia Coppes
Geoffrey Feldman
Frank Kelly
Chris Markham
Ed Reed
Diane Wagner
Alex Welsh
and, as always, Dennis

THE GEOGRAPHY OF OPPORTUNITY: WHAT’S NEEDED FOR BROADER STUDENT SUCCESS
HEALTH
• 48% of elementary schools have a health and physical education teacher.
• 61% of urban/suburban elementary schools have a health and physical education teacher, compared to 30% of small town/rural schools.
• 50% of elementary and 76% of secondary schools report having a regularly scheduled social worker.

ARTS
• 43% of elementary schools have a music teacher, either full- or part-time.
• 33% of urban/suburban elementary schools have a full-time music teacher, compared to 11% in small town/rural schools.

LIBRARIES
• Only 54% of elementary schools have teacher–librarians, and only 10% have a full-time teacher–librarian.
• Only 55% of secondary schools report a full-time teacher–librarian.
• 60% of elementary schools in urban/suburban communities report having a teacher–librarian, compared to 44% of small town/rural schools.

GUIDANCE
• 99% of all secondary schools report having a guidance counsellor.
• Only 25% of elementary schools with grades 7 and 8 have a guidance counsellor, either full- or part-time.
• 94% of urban/suburban secondary schools have a full-time guidance counsellor, compared to 74% of small town/rural schools.

SPECIAL EDUCATION
• An average of 17% of students in each elementary school, and 27% of students in each secondary school receive any assistance from the special education department.
• 59% of elementary and 52% of secondary schools report that there are restrictions on the number of students they can place on waiting lists for assessments.
• 91% of urban/suburban elementary schools report having a full-time special education teacher, compared to 66% in small town/rural schools.

INDIGENOUS EDUCATION
• 29% of elementary schools and 49% of secondary schools had Indigenous guest speakers.
• 31% of elementary schools and 53% of secondary schools offer professional development opportunities on Indigenous cultural issues to staff.
INTRODUCTION

Ontario’s public education system is one of the most successful and high-performing systems in the world. Internationally recognized for its commitment to equity, achievement, and inclusivity, Ontario has inspired and informed education policies around the globe. But the considerable disparity between Ontario’s schools in staffing, resources, and learning opportunities remains an ongoing concern.

This year, the province will spend $22.8 billion to educate nearly two million students in schools across a wide range of settings: from small schools in remote, rural locations to large schools in urban areas. Providing an enriched learning experience for all students, including arts, health, music, and Indigenous education, and serving the needs of a diverse school system and its students is an enormous undertaking.

This year’s Annual Report on Ontario’s Publicly Funded Schools looks at the resources, staff, and learning opportunities in schools. The report is based on survey responses from 1,154 schools with nearly 500,000 students. Each of Ontario’s 72 publicly funded school boards is represented in the sample.

There are some areas of improvement this year. The percentage of elementary schools reporting a vice principal has risen from 42% in 2011 to 45% this year, and more schools report having health and physical education teachers, social workers, and child and youth workers.

There are also improvements in Indigenous education. Since 2012, the percentage of schools reporting they have professional development for staff on Indigenous cultural issues has increased from 34% to 53% in secondary schools, and from 25% to 31% in elementary schools. However, in order to ensure that all students have access to a rich Indigenous education, it is important that the province act on all of the Calls to Action from the Truth and Reconciliation Commission of Canada that pertain to the changes needed in public education.

While there are some areas of improvement, we are also seeing cuts to important specialist positions, such as elementary teacher-librarians. In addition, elementary schools in rural areas and small towns are less likely to have access to health and physical education, music, and arts teachers when compared to schools in urban/suburban locations.

There have also been significant changes to funding in areas such as special education and Indigenous education over the past few years. While the changes may result in improved access and more effective programs, it will be important for the province to evaluate the impact of the changes on an ongoing basis.

There is extensive evidence that a broadly based education, with diverse opportunities for learning, provides students with an equitable chance for success—one of the key goals of public education. In this year’s report, the decline and disparities in access to programs and specialists in arts, health and physical education, and libraries challenge the ideal of a broadly based public education system. In order to provide all students with access to a wide range of learning opportunities—regardless of the size of their schools or their location—the province must work with school boards and communities to ensure that appropriate funding and policy is in place.
Ontario’s revised Health and Physical Education curriculum is centred on the principle that “health and physical education programs are most effective when delivered in healthy schools and when students’ learning is supported by school staff, families, and communities.”

The concept of a “healthy school” includes the social and physical environment, curriculum teaching and learning, healthy school policy, and student engagement; as well as home, school and community partnerships and services. Internationally and nationally, this concept is referred to as Comprehensive School Health. In addition to its impact on children’s health, the implementation of comprehensive models—such as Ontario’s Foundations for a Healthy School—has been connected to positive academic outcomes and ensuring that all students have the skills to excel academically and to lead happy, healthy lives.

HEALTHY SCHOOLS IN ONTARIO

Ontario’s Ministry of Education has introduced a number of policies since 2005 to combat childhood obesity and improve students’ overall health. These strategies outline such things as the types of food and drinks that can be sold in schools, and the implementation of 20 minutes of mandatory daily physical activity. According to a report from the Auditor General, Ontario spent approximately $7.8 million on its Healthy Schools Strategy between 2009 and 2014.

To achieve the changes in students’ health and well-being outlined in the new curriculum and the Healthy Schools Strategy, school health programs should be long-term, concentrated, and include both effective teaching strategies and supported connections between the school and community. The Ministry has acknowledged that these changes will not occur overnight, but in 2015, the Auditor General found little progress on the Healthy Schools Strategy initiatives. Most notably, the Auditor’s report found that the Ministry had failed to set up a monitoring system to ensure that school boards are complying with the recommendations in its policy: “…we found that the Ministry and school boards needed to put more effort into ensuring compliance with these requirements, and they needed to work more effectively with other organizations and stakeholders, including parents, to share effective practices for encouraging healthy living and increased physical activity throughout the system.”

HEALTH BY NUMBERS

Ontario’s goal is to ensure that each student works towards physical and emotional health, and that they do so in healthy school communities. To achieve this goal, teachers, principals, and parents are expected to work in partnership to create healthy school communities.

QUICK FACTS

- 48% of elementary schools have a health and physical education teacher, compared to 40% in 2009.
- 61% of urban/suburban elementary schools have a health and physical education teacher, compared to 30% of small town/rural schools.
- 50% of elementary and 76% of secondary schools report having a regularly scheduled social worker.
The focus on health is evident in the upward trend in the percentage of Ontario elementary schools with a health and physical education teacher. This year, 48% of elementary schools report having a health and physical education teacher, either full- or part-time, compared to 40% in 2009 (see Figure 1). While the majority of health and physical education teachers have taken additional qualifications courses, not all are specialists.\textsuperscript{14}

Unfortunately, because funding for specialist teachers is dependent on student numbers, schools and school boards are often forced to decide between different types of specialists. The increase in health and physical education teachers in elementary schools appears to be mirrored by a drop in specialists in the arts and libraries.\textsuperscript{15}

**SUPPORTING STUDENTS’ MENTAL HEALTH**

Along with physical health, mental health is a critical element of any comprehensive school health model. Figure 2 illustrates an example of a “whole school model” that is focused on mental health. The foundation lies in shaping the school’s environment into one that is “health promoting.”\textsuperscript{16}

Given the ever-increasing mental health needs of our students, we need more access to services and more services available to schools.

*Elementary school, Avon Maitland DSB*

As Figure 2 shows, all schools have students who require additional support that may be difficult for regular teachers to provide. Boards often employ specialist staff, such as psychologists, social workers, or child and youth workers, to help these students overcome challenges relating to their mental health.\textsuperscript{17}

In 2016:

- 50% of elementary and 76% of secondary schools report having a regularly scheduled social worker, compared to 43% of elementary and 63% of secondary schools in 2012.
- 37% of elementary and 53% of secondary schools report having a regularly scheduled child and youth worker, compared to 33% of elementary and 51% of secondary schools in 2012.
- 34% of elementary and 33% of secondary schools report having a regularly scheduled psychologist, compared to 35% of elementary and 36% of secondary schools in 2012.

Despite rising numbers in some areas, many principals still feel they are underserved, and that more mental health professionals are needed.

*Psychologists, Social Workers and Speech Language Pathologists are shared amongst a number of schools. Although they have a scheduled half-day at the school, this isn’t enough to service the many students we have that end up on the growing wait list.*

*Elementary school, York Region DSB*
Il y a de plus en plus d’enfant en besoin, mais les services ne grandissent pas.

Elementary school, CÉP de l’Est de l’Ontario

URBAN/SUBURBAN VERSUS SMALL TOWN/RURAL

Although there are more health and physical education teachers and support staff available overall, boards in more remote areas are less likely to have access to them (see Figure 3):

- 61% of urban/suburban elementary schools have a health and physical education teacher, compared to 30% of small town/rural schools.
- 62% of urban/suburban elementary schools report regularly scheduled social workers, compared to 30% of small town/rural schools.
- 46% of urban/suburban elementary schools have a regularly scheduled psychologist, compared to 15% of small town/rural schools.

Only in child and youth workers do the proportions favour small town/rural schools. Thirty-five percent of urban/suburban schools report a regularly scheduled child and youth worker, compared to 39% in small town/rural schools.

Small town/rural boards, which typically have lower enrolment, may be at a disadvantage when it comes to hiring professionals and para-professionals such as psychologists, social workers and child and youth workers. As is the case with most education funding, boards receive funds for these staff based on enrolment. The province provides funding at a rate of one staff member with a salary of approximately $58,000 (not including benefits) for every 578 students. It is up to individual boards to decide which staff to hire. Average salaries in these professions range from approximately $39,000 per year for child and youth workers, to $61,000 for social workers, and approximately $70,000 for psychologists. Boards with lower enrolments may be making decisions about which types of support staff to employ based on finances rather than need.

In the past, we have formulated the timetable to allow for a specialist health and physical education teacher to deliver programming to the majority of the classes. Unfortunately, the only way to accomplish this is by assigning the prep coverage to the health and physical education teacher. This would result in a reduction in teacher–librarian time in the library, as part of their allocation is prep coverage.

Elementary school, Kawartha Pine Ridge DSB
Arts education plays a vital role in student engagement, achievement, and well-being. Learning about and participating in the arts helps students to develop a range of competencies and skills—not just in creativity, but also in citizenship, social-emotional learning, and health. These broad skills are key to fostering success in today’s society. Given that 95% of Ontario’s children attend public schools, the publicly funded school system is the ideal environment for them to receive formal education in the arts.

SPECIALIZED CURRICULUM MAY REQUIRE SPECIALIZED TEACHERS

Ontario’s arts curriculum promotes the development of knowledge and skills in dance, drama, music, and visual arts through four core learning objectives: developing creativity, communicating, understanding culture, and making connections. Each area of the arts curriculum requires specialized knowledge. For example, in the elementary music curriculum, students are expected to learn to read and understand music by creating, interpreting, and performing it. Dance, fine arts, and drama also have extensive technical expectations over the eight years of elementary curriculum. In order to fulfill these expectations, teachers need a fairly high degree of technical understanding, which may be a challenge for a classroom teacher without a background in the arts.

SPECIALIST ARTS TEACHERS

The province’s renewed vision for education includes a commitment to, “promote the value of the arts, including the visual and performing arts, in developing critical and creative thinking skills that support success in school and in life.” Despite this commitment, there continues to be a lack of specialist teachers in music, visual arts, and drama in elementary schools.

In 2016:
- 43% of elementary schools have a music teacher, either full- or part-time, compared to 45% last year. This is the lowest percentage in 10 years (see Figure 4) and is dramatically lower than in 1998, when 58% of elementary schools had specialist music teachers.
- 38% of elementary schools report having an itinerant music teacher, compared to 39% last year.
- 15% of elementary schools with grades 7 and 8 have specialist visual arts teachers, remaining consistent with last year.
- 9% of elementary schools with grades 7 and 8 have a specialist drama teacher, unchanged in the last two years.

Figure 4
In their comments, a number of principals identify staffing and resource constraints as reasons for the decline in arts specialists.

We have an excellent music programme that provides specialist instruction in grades 4 through 6, and instrumental music classes to students in grades 7 and 8. Extending the specialist instruction to all grades is a goal, but a significant challenge based upon the way in which FTE is allocated.

Elementary school, Kawartha Pine Ridge DSB

EQUITY AND ACCESS TO ARTS-ENRICHED LEARNING

Data from this year’s survey show that in elementary schools, geography has an impact on access to specialist arts teachers (see Figure 5). Elementary schools that report having a specialist music teacher also report greater opportunities to participate in other arts activities.

More than 80% of elementary and secondary schools report opportunities for students to participate in a performance/exhibition, learn an instrument within school hours, or work with an artist or other professional from outside of the school. These opportunities have been shown to enrich students’ experience of the arts and promote student engagement; but for elementary schools in particular, it appears that whether students have these opportunities is influenced by whether they have a specialist music teacher (see Table 1).

We have a huge instrumental music program because of a staff member who has a degree in music.

Elementary school, Upper Canada DSB
School libraries play an essential role in ensuring that Ontario’s students are prepared for today’s information- and knowledge-based society. School library programs can provide opportunities for students to develop a love of reading, an understanding of diverse texts, problem solving, digital literacy, and citizenship skills. School libraries also help students access curriculum-support resources, and they teach students to value the role of libraries in school and society.

In Ontario, many school libraries have recently transitioned to a Learning Commons model, where the library provides both a physical and virtual space for student learning. This model requires collaboration between teacher-librarians, classroom teachers, students, principals, and technical staff. It also integrates technology into a space that is dynamic and adaptable based on students’ learning needs.

**DECLINE IN TEACHER-LIBRARIANS**

Teacher-librarians, in collaboration with classroom teachers, can help to foster important skills for student success, including information literacy, problem solving, communication, and critical thinking. Over the past 15 years, there has been a decline in teacher-librarians in Ontario’s publicly funded schools (see Figure 6).

In 2016:

- In elementary schools, only 54% of schools have teacher-librarians, a decline from 60% last year and 80% in 1998.
- The majority of elementary teacher-librarians are part-time, with only 10% of schools having at least one full-time teacher-librarian.
- The percentage of secondary schools with a full- or part-time teacher-librarian has increased marginally from last year—from 72% to 74%—however, there has been a slight decline in secondary schools reporting full-time teacher-librarians.

Funding constraints have forced a number of boards to cut teacher-librarian positions. For example, in 2015, the Toronto Catholic DSB cut teacher-librarian positions in all of its elementary schools to manage the board’s $42.6 million budget shortfall. Since 2011, the Windsor-Essex Catholic DSB has also made significant cuts to school library services and resources, including the elimination of school library staff. Cuts of this magnitude may undermine students’ opportunities to develop the broad skills that are supported through an effective school library program.

---

**QUICK FACTS**

- Only 54% of elementary schools have teacher-librarians, and only 10% have a full-time teacher-librarian.
- Only 55% of secondary schools report a full-time teacher-librarian.
- 60% of elementary schools in urban/suburban communities report having a teacher-librarian, compared to 44% of small town/rural schools.
THE RISE OF LIBRARY TECHNICIANS

While the percentage of elementary schools with teacher–librarians has declined, there has been an increase in schools with library technicians. This could be a direct result of a difference in pay scales. School boards receive funding from the province for one elementary library staff for every 763 students at a rate of $74,000 (before benefits). The average wage for a library technician is between $32,000 and $61,000. Boards can save considerable funding by staffing their libraries with library technicians instead of teacher–librarians.

While library technicians have an important role in school libraries, it differs from that of teacher–librarians. In Canada, library technicians play a supportive role, operating between a "clerk and a librarian," unlike teacher–librarians, who are Ontario certified teachers with specialist qualifications in librarianship.

In 2016:

- 49% of elementary schools have a library technician, compared to 43% last year.
- 49% of secondary schools have a library technician, compared to 44% last year.

According to the Ontario Library Association, the decline in the percentage of schools with teacher–librarians and the increased reliance on library technicians is having an impact on the quality of school library programs, and on their capacity to achieve goals of reading engagement, information literacy, and co-teaching and co-planning.

URBAN/SUBURBAN VERSUS SMALL TOWN/RURAL

There are wide discrepancies between school library staff in urban/suburban and small town/rural schools. The lack of staff in small town/rural elementary school libraries may limit students’ opportunities to develop the broad skill set that school libraries may foster.

In 2016 (see Figure 7):

- 44% of elementary schools in small town/rural areas report having a teacher–librarian, compared to 60% of urban/suburban schools.
- 53% of elementary schools in small town/rural areas report having a library technician, compared to 46% of urban/suburban schools.

In the past, we have formulated the timetable to allow for a specialist health and physical education teacher to deliver programming to the majority of the classes. Unfortunately, the only way to accomplish this is by assigning the prep coverage to the health and physical education teacher. This would result in a reduction in teacher–librarian time in the library, as part of their allocation is prep coverage.

Elementary school, Kawartha Pine Ridge DSB

![Percentage of elementary schools with teacher–librarians and library technicians, by area](image)
Expectations for guidance counsellors have been rising in recent years. In new provincial policies that outline comprehensive school supports for social-emotional development, health and well-being, and career and life planning, the Ministry of Education has routinely envisioned guidance counsellors performing a wider range of tasks. Funding for guidance counsellors, however, has remained relatively unchanged since Ontario’s education funding formula was introduced in 1998.

In this year’s survey, schools report two major challenges related to rising expectations for guidance counsellors:

• Guidance counsellors are pulled in many directions, and the role of a guidance counsellor has become unclear.
• Guidance counsellors are few in number.
  ◦ Secondary schools report an average of 381 students for every guidance counsellor. In some secondary schools, this ratio climbs as high as 595 students.
  ◦ Only 25% of elementary schools with grades 7 and 8 have a guidance counsellor, either full- or part-time.

RISING EXPECTATIONS FOR GUIDANCE COUNSELLORS

Since 2012, the Ministry has introduced many policies that place guidance counsellors in key supporting roles. Creating Pathways to Success calls for well-coordinated career and life planning from kindergarten to grade 12, and identifies guidance counsellors as having a “strategic role” in helping students make effective transitions throughout school. In describing mental health strategies, Supporting Minds instructs teachers to connect students struggling with mental health issues to guidance counsellors. Other provincial initiatives call on guidance counsellors to provide individual counselling services, serve on collaborative school teams, and support social-emotional development programming.

QUICK FACTS

- 99% of all secondary schools report having a guidance counsellor.
- Only 25% of elementary schools with grades 7 and 8 have a guidance counsellor, either full- or part-time.
- 94% of urban/suburban secondary schools have a full-time guidance counsellor, compared to 74% of small town/rural schools.

THE UNCLEAR ROLE OF A GUIDANCE COUNSELOR

The province currently has no specific job description for guidance counsellors in schools, using only a broad description from Canada’s National Occupation Classification that does not distinguish between the roles of elementary and secondary school counsellors.

The diverse range of expectations for guidance counsellors is reflected in this year’s survey. More than 80% of schools report that guidance counsellors play a primary role in each of the following activities:

• supporting student transition planning;
• collaborating with school teams or departments;
• supporting academic achievement;
• supporting student mental health; and
• supporting the development and refinement of students’ Individual Pathway Plans.
The role of the guidance teacher is not well-defined in the policy document Creating Pathways to Success. With the emergence of non-teacher support services in the school, the role of the guidance teacher could use clarification.

Secondary school, Lambton Kent DSB

Guidance counsellors are expected to deliver supports in numerous areas that require both complex skills and substantial time with individual students. Although there may be perceived advantages to having guidance counsellors work in so many different areas, schools indicate a disconnect between policy expectations and the reality on the ground, reporting that guidance counsellors are “spread thinly” and “pulled in too many directions.”

Figure 8

How guidance counsellors spend most of their time in secondary schools

Note: An IPP (Individual Pathway Plan) is a planning tool that students use to record both what they have learned and their future goals. Provincial policy mandates that all students must have an IPP by Grade 7 (Creating Pathways). All students with Individual Education Plans are required to have Transition Plans to support transitions, including into school, between grades, programs and schools, from elementary to secondary and from secondary school to the “next appropriate pathway.”

Given rising demands, schools report a lack of clarity on the guidance counsellor’s role. In this year’s survey, schools ranked seven activities based on the amount of time a guidance counsellor spends on them (see Figure 8). Secondary schools rank supporting academic achievement (38%) and supporting mental health (25%) as activities consuming the most time. However, there is little consensus among schools: nearly 40% of schools rank one of the other five activities as consuming the most time.

The guidance activity consuming the most time also varied among elementary schools. In the limited number of elementary schools with guidance counsellors, 40% rank transition planning as taking up the highest proportion of counsellors' time, while 22% report mental health as number one.

DISPARATE ACCESS TO GUIDANCE COUNSELLORS

Although 99% of secondary schools report having a guidance counsellor, access differs widely across schools. The average ratio is 381 students per guidance counsellor. However, this ratio jumps to 595 students per guidance counsellor in 10% of secondary schools.

In elementary schools with grades 7 and 8, students must choose courses for secondary school that can greatly influence their post-secondary options and future careers. Students also undergo many emotional, social, and physical changes during this time. Research indicates that Ontario’s school counsellors may have an especially vital support role for students in grades 7 and 8. Despite this, only 25% of schools with grades 7 and 8 have a guidance counsellor, full- or part-time.

The challenge is that the guidance teacher has been assigned to 14 schools. Therefore, she is here only one afternoon every two weeks—not enough to see the students who can benefit from her service.

Elementary school with grades 7 and 8, Toronto DSB
Geography and school size affect access to guidance counsellors. Seventy-four percent of small town/rural secondary schools have full-time guidance counsellors, compared to 94% of urban/suburban schools. Only 10% of small town/rural elementary schools with grades 7 and 8 have either a full- or part-time guidance counsellor. By contrast, 38% of urban/suburban elementary schools with grades 7 and 8 have either full- or part-time counsellors. These differences are largely a result of Ontario’s per-pupil funding formula, which supports more staff in school boards with higher student populations.

Counsellors offer depth and breadth of expertise in order to support diverse student learners. Guidance staff work in collaboration with administration, student success, student services (special education), alternative education, cooperative education and [English language learners]... Time constraints pull guidance staff in too many directions.

Secondary school, York Region DSB
All students, regardless of ability or specialized instructional needs, have equal rights to public education in Ontario. This principle is embedded in our current education system, and, for students identified with special education needs, enshrined in law. Virtually every school in Ontario has students who receive special education assistance.

ACCESS TO RESOURCES AND SUPPORT

In 2016, an average of 17% of students in each elementary school and 27% of students in each secondary school receive any assistance from the special education department. Supports for students cover a wide range—from specialized classes and equipment for students with very high needs, to a little extra help during the day in a regular classroom. Not all students with special education needs require or receive support from qualified special education teachers. In cases where students are receiving support in a regular classroom, for example, the classroom teacher may be supported by a special education teacher who works with all of the teachers in the school. In other cases—where students may have higher, or particular needs—the students may be withdrawn for all or part of the day to a special education class. While the ratio of students receiving special education support to special education teachers has remained fairly steady in elementary schools over the last four years, there has been a substantial increase in the ratio in secondary schools (see Figure 11).

QUICK FACTS

- An average of 17% of students in each elementary school, and 27% of students in each secondary school receive any assistance from the special education department.
- 59% of elementary and 52% of secondary schools report that there are restrictions on the number of students they can place on waiting lists for assessments.
- 91% of urban/suburban elementary schools report having a full-time special education teacher, compared to only 66% of small town/rural schools.

Lots of successes due to our GREAT team of teachers, [resource teachers] and [educational assistants]. We work together with parents and students to serve needs. We make excellent use of the support we receive and we know how very valuable it is!

_Elmentary school, Huron Perth CDSB_

PROVIDING SUPPORT FOR STUDENTS—WAITING LISTS AND RESTRICTIONS

While 44% of students receiving special education support have Individual Education Plans only (and no formal identification), 56% go through an Identification Placement and Review (IPRC) process. This process is required in order to be identified under one of the province’s categories of exceptionality. Once a student is identified, the IPRC makes a recommendation on the type of supports and/or placements to be provided.
[Services are] hard to access since we are 2.5 hours away from our Board Office and support staff.  

Elementary school, Rainbow DSB

Prior to the IPRC process, the student may be required to undergo a psycho-educational assessment conducted by a psychologist or other trained professional. The assessment provides more information about the nature of the student's learning challenges and the types of support that may help. If the school cannot provide an assessment in a timely manner, parents may choose to pay for one privately. Private assessments can cost more than $2,500.50 When parents pay privately, they avoid waiting lists, which can range from months to years. Children on waiting lists may be going without the early support that can have an impact on their chances for long-term success.56

In 2016:

- The percentage of elementary schools reporting that not all students are receiving recommended support has increased to 26% from 22% last year.
- Elementary and secondary schools have an average of 6 students per school waiting for an assessment.
- 59% of elementary and 52% of secondary schools report that there are restrictions on the number of students they can place on waiting lists for assessments.
- Restrictions on assessments are highest in elementary schools in small town/rural areas, where 72% of schools report them, as compared with 50% in urban/suburban areas.

EDUCATIONAL ASSISTANTS

Ninety-five percent of secondary and 91 percent of elementary schools have educational assistants in special education. These assistants provide support in both regular classrooms and special education classes. They work with students individually or in groups, under the guidance of the teacher. Their responsibilities include everything from helping students with lessons to assisting with personal hygiene or behavioural modification.

The qualifications required for educational assistants vary from board to board, however only 36% of elementary and 59% of secondary schools report that the majority of their educational assistants have an additional post-secondary qualification in special education.

CHALLENGES IN SPECIAL EDUCATION

In their comments, principals identify many challenges in meeting students’ needs, including a lack of staff or funding; the amount of paperwork associated with special education; problems with accessing assessments due to backlogs, restrictions, or long wait times; and behaviour and mental health concerns that take substantial time away from providing academic support. In recent consultations on education funding conducted by the Ministry of Education, school boards and a range of stakeholders, including principals, teachers, parents, and board staff, raised similar concerns.62

[The challenge is that] teachers are unable to consistently meet the needs of all of their students (due to lack of experience, training and knowledge, and the sheer diversity of student needs) and special education teachers are restricted in the amount of support that they can provide due to time constraints (only 1 teacher and 1 EA).  

Elementary school, Bluewater DSB
CHANGES TO ONTARIO’S SPECIAL EDUCATION FUNDING FORMULA

The province estimates it will spend $2.76 billion on special education next year. Half of this is provided through a Special Education Per-Pupil Amount (SEPPA) that is based on the total number of students in the school board. The SEPPA funds the additional assistance that the majority of special education students require—including everything from educational assistants to psycho-educational consultants, special education teachers and a range of classroom supports.

The remainder of special education funding is intended to cover the cost of things like special equipment and facilities, separate classrooms, special education teachers, and other supports for students with higher needs. In an effort to make the funding more responsive to boards’ and students’ needs, the Ministry has been implementing a new funding model focused on students with higher needs. The new funding model is calculated, for the most part, based on two factors:

- a Special Education Statistical Prediction Model that uses demographic data to estimate the total number of students likely to receive special education supports; and
- a formula for ‘Measures of Variability’ which takes into account other local factors, such as percentage of students exempted from EQAO tests, remoteness, percentage of students currently receiving special education supports, estimated percentage of students who are First Nations, Métis or Inuit, and numbers of locally developed courses or alternative credits offered by the board.

TEACHER EDUCATION TO SUPPORT ALL STUDENTS WITH SPECIAL NEEDS

Comments from the survey identify the need for better educational supports so that teachers can meet the broad diversity of learning needs in today’s classrooms. One principal suggests, “all teachers should have [a special education] background.” A report on special education prepared for Ontario’s Ministry of Education states that as more students with special education needs are accommodated within regular classrooms, providing all teachers with special education training is essential for inclusive education to be effective.

URBAN/SUBURBAN VS. SMALL TOWN/RURAL

Special Education support is not evenly divided throughout school boards in Ontario.

In 2016:

- 91% of urban/suburban elementary schools report having a full-time special education teacher, compared to only 66% in small town/rural schools.
- 50% of urban/suburban elementary schools report a restriction on the number of students who can receive special education assessments. That number jumps to 72% in small town/rural schools.

[We] need MORE psycho-educational assessments. In more affluent schools, where parents are working and have coverage, they make up for the lack of assessments by having parents pay privately, which frees up assessments for the children who are left. When you work in a less affluent school there are often more students who need the assessment, fewer parents who can afford to go privately, and there are not nearly enough assessments to go around.

Elementary school, Upper Grand DSB
While public attention is most often focused on the challenges faced by on-reserve schools, it is less well-known that in Ontario, 82% of First Nations, Métis, and Inuit students attend provincially funded schools.67

For a number of years, Ontario’s Ministry of Education and Ontario school boards have focused on two priorities: improving Indigenous students’ chances for success, and increasing all students’ access to a strong Indigenous education.68 In 2015, in its “Calls to Action,” Canada’s Truth and Reconciliation Commission (TRC) provided a number of concrete ways to achieve these goals.69 The Calls to Action outlined the changes that provinces need to make in order to support the integration of Indigenous knowledge and teaching methods into the classroom.

While there has been marked progress toward embedding Indigenous education into Ontario’s schools, there are still challenges to be addressed.

EDUCATIONAL OPPORTUNITIES AND COMMUNITY CONNECTIONS

In an extensive consultation conducted by the Provincial Advocate for Children and Youth, Indigenous young people said they wanted traditions and teachings from elders to be part of their educational experience.70 According to Indigenous education researcher Susan Dion, this access increases “opportunities for teachers and students to learn from Aboriginal people” and increases “First Nations, Métis, and Inuit students’ experiences of belonging and well-being in schools.”71 Parent engagement also increases when stronger ties between schools and communities exist.72

Responses to this year’s survey show that more Indigenous guest speakers are being invited into schools at both elementary and secondary levels, and that there has been an increase in the percentage of secondary schools consulting with Indigenous community members (see Table 2).

While these positive changes are worth celebrating, concerns persist. The majority of schools do not offer any Indigenous education activities, and urban regions lag behind rural areas in providing Indigenous education and supports. Furthermore, some principals commented that their schools had too few First Nations, Métis, or Inuit students to warrant a specific focus on Indigenous education.

In 2016:

- Only 10% of elementary schools offer Indigenous cultural ceremonies, and only 6% offer Native Studies programs.
- 30% of secondary schools report Indigenous cultural ceremonies, but only 11% report language programs, which has remained consistent for the past two years.
- 23% of secondary schools provide post-secondary outreach with a focus on Indigenous students.

**Supporting Teachers’ Professional Development**

For teachers who are not familiar with Indigenous literature or First Nations, Métis, and Inuit cultures and histories, integrating Indigenous content into their courses can be overwhelming. Professional development can play a vital role in transforming their classrooms and their teaching practices.73

In 2016:

- 31% of elementary schools now offer professional development opportunities on Indigenous cultural issues to staff, compared to 25% in 2014 (see Figure 13).
- 53% of secondary schools offer professional development, compared to 34% in 2014.
- Only 15% of elementary and 35% of secondary schools report that they have a designated staff member (other than the principal or vice principal) who coordinates Indigenous education in their school.

- Of the elementary and secondary schools reporting no designated staff, more than 85% report having access to staff support from their school board.

**Addressing Identified Goals**

In 2007, Ontario’s Ministry of Education introduced its First Nation, Métis and Inuit Education Policy Framework, which identifies specific goals aimed at closing both the achievement gap for Indigenous students and the knowledge gap experienced by all students.74 The Ministry set 2016 as its target date for closing the gap between Aboriginal and non-Aboriginal students in literacy, numeracy, student retention, graduation rates and pursuit of post-secondary education, and providing Aboriginal education opportunities for all students.75

In spite of programming and monetary investments, these goals appear to be unachievable by the Ministry’s target date. Achievement levels for most Indigenous students remain below that of their non-Indigenous peers,76 with the most recent available data from the Education Quality and Accountability Office (2011/12) showing a gap of more than 20 percentage points on reading, writing and math test scores between First Nations students and all students in English language school boards.77 The fact that the majority of schools do not offer other Indigenous education supports and programs also limits their capacity to reach the Ministry goals.

**Indigenizing Education**

While there are signs of progress in Indigenous education, the biggest challenge may be the true Indigenization of education. Indigenizing education is not merely a matter of ensuring that Indigenous students have specialized programs and services; it requires learning environments that go beyond brief cultural experiences to include far broader expressions of Indigenous identity. In a truly Indigenized system, Indigenous concepts and ways of viewing the world are woven into the entire curriculum, rather than delivered as stand-alone curriculum expectations.78 This requires reconceiving learning environments so that physical, emotional, intellectual, and spiritual elements are valued in addition to literacy and numeracy.79
Nous aimerions bien avoir des personnes ressources qui viennent faire des cérémonies et servir de mentors auprès de nos jeunes Autochtones, Métis et pour la population en général.

*Elementary school, CSD du Grand Nord de l’Ontario*

Some principals expressed concern that their schools contained too few Indigenous students to warrant a specific focus on Indigenous education. As one principal stated, "Small numbers mean limited interest or perceived need." Yet, as Dion, Johnston, and Rice have shown, all students benefit from a better understanding of Canada’s history of colonization and its influence upon current relationships between Indigenous and non-Indigenous people.

One promising option at the secondary level is the granting of a compulsory English credit to students who take the grade 11 Contemporary Aboriginal Voices English course.

*Elementary school, Peel DSB*

**THE IMPACT OF FUNDING AND STUDENT NUMBERS ON INDIGENOUS EDUCATION PROGRAMS**

In the 2016 surveys, some principals commented that they did not receive as much funding for Indigenous cultural opportunities as schools with higher Indigenous populations. This may be a result of targeted funding in the First Nation, Métis and Inuit Education Supplement that provides a base amount to all school boards to support implementation of the FNMI Education Policy Framework, plus additional support for boards with higher proportions of First Nations, Métis and Inuit students.

In the 2016/17 school year, school boards will receive $64 million to support First Nation, Métis and Inuit education. For the first time this year, the Ministry has included a requirement that a portion of the funding in the basic per-pupil allocation must be used to establish a supervisory officer-level position focused on the implementation of the Ontario First Nation, Métis, and Inuit Education Policy Framework. Responsibilities will include “working with First Nation, Métis, and Inuit communities, organizations, students and families…supporting programs to build the knowledge and awareness of all students about Indigenous histories, cultures, perspectives and contributions; and supporting implementation of Indigenous self-identification policies in each board.”

Boards are not only required to spend at least half of the targeted amount on this dedicated position, but they must also confirm that any remaining amount has been used to support the First Nation, Métis and Inuit Education Policy Framework.

This year the Ministry will also begin to phase in data from the 2011 National Household Survey, which will be used to allocate the per-pupil funding amount. In addition, 45% of the funding for the Board Action Plans required by the Ministry will be allocated based on voluntary Indigenous student self-identification. By the end of the phase-in period, it is expected that the 2016 census data will be available for use in implementing further updates. More accurate demographic data will help to ensure that funding is allocated where it is needed.

We work in grade teams to provide educational opportunities for all students on Aboriginal perspectives and culture. We have a community member who will be working with the staff on the Medicine Wheel teachings and the Seven Sacred Teachings.

*Elementary school, Toronto DSB*

Since the person who carries the Aboriginal portfolio also has numerous other responsibilities, and our school would not be a priority school, I feel as though we are missing out on many wonderful learning opportunities for the Aboriginal students within our building.

*Elementary school, Superior North CDSB*
RESEARCH METHODS

Unless cited from other sources, the statistics and quoted material in this report originate from People for Education’s 19th Annual Survey (2015/16) of Ontario’s elementary schools, and 16th Annual Survey of Ontario’s secondary schools. The surveys were mailed to principals in every publicly funded school in Ontario during the fall of 2015. Schools in French language school boards received translated surveys. Surveys were also available for completion online in English and French.

This year we received 1,154 responses from elementary and secondary schools, covering each of Ontario’s 72 publicly funded school boards, and 24% of the province’s publicly funded schools. The responses also offer a largely representative sample of publicly funded schools across provincial regions (see Figure 14). All survey responses and data are confidential and stored in conjunction with Tri-Council recommendations for the safeguarding of data.

DATA ANALYSIS

The analyses in this report are based on both descriptive and inferential statistics. The chief objective of descriptive analyses is to present numerical information in an illuminating format that is accessible to multiple audiences. All data were analyzed using SPSS statistical software.

For geographic comparisons, schools were classified as either small town/rural or urban/suburban using postal codes. Small town/rural schools are located in jurisdictions with under 75,000 people and not contiguous to an urban centre greater than 75,000 people. All other schools were classified as urban/suburban schools. Based on scholarly literature and governmental sources, it was determined that a population of 75,000 persons provided the most accurate dividing line between small town/rural and urban/suburban areas in the Ontario provincial context.

REPORTING

Calculations have been rounded to the nearest whole number and may not amount to 100%. The average student to staff ratio was calculated for schools that reported both the total number of students and the full-time equivalents for staff positions.

</table>
In Ontario, funding for education and child care is overseen by the provincial government.

The Ministry of Education makes decisions about how much money will be spent on education overall, and allocates funding to school boards based on a provincial funding formula. Specific decisions about how to spend the provincial funding are made by school boards and by school principals.

**THE FUNDING FORMULA**

Since the provincial funding formula was first developed in 1997, many adjustments have been made, including changes to recognize the unique needs of boards with a high number of small schools, adjustments to funding for special education, and funding to cushion the blow of declining enrolment. But much of education funding continues to be tied to enrolment.

Funding for classroom teachers, education assistants, textbooks and learning materials, classroom supplies, classroom computers, library and guidance services, preparation time (which funds specialist and student success teachers), professional and para-professional supports, and textbooks is allocated on a per-pupil basis. (E.g. for every 763 elementary students, the province provides funding for one teacher–librarian; for every 385 secondary students, the province provides funding for one guidance counsellor).

Principals, vice principals, school secretaries, and school office supplies are funded according to a formula based both on numbers of students and numbers of schools.

Funding to heat, light, maintain and repair schools also depends on student numbers. There is funding to maintain 104 square feet per elementary student, 130 square feet per secondary student and 100 square feet per adult education student. There is also some “top up” funding for schools that are just below the provincially-designated capacity.

Per-pupil funding is not meant to be equal, as different boards have different needs. But it is meant to provide equal educational opportunity for all students. To accomplish this, other specific grants are added to the per-pupil base that boards receive, including grants for special education, English or French language support, transportation, declining enrolment, learning opportunities, etc.

WHERE ARE THE DECISIONS MADE?

**The province**

The Ministry of Education provides funding to school boards based on a number of factors, including the number of students in a board, the number of schools, the percentage of high needs special education students, the number of students who have either English or French as their second language, and unique geographical needs (a high number of small schools, very far apart, for example).

But only special education, capital funding, components of the Learning Opportunities Grant, and the First Nations, Métis and Inuit Grant are “sweatered,” meaning funds provided cannot be spent on anything else. Most other funding can be moved from one category to another, which means that many funding decisions are made at the board level.

**The school board**

School boards make decisions about individual schools’ budgets and on criteria for things like the number of students a school must have in order to get staff such as teacher–librarians or vice-principals. Boards distribute funding for teachers to schools depending on the number of students and, in some cases, depending on the number of students who might struggle to succeed—either because of socio-economic or ethno-racial factors, or because of special needs. Boards also decide which schools should stay open and which should close, and how many custodians, secretaries and educational assistants each school will get.

**The school**

Principals receive a budget for the school from the school board. They make decisions about school maintenance and repairs within that budget, and about the distribution of teachers and class sizes. They decide how to allocate educational assistants and whether their school can have staff such as a teacher–librarian, a music teacher, or department heads. Depending on the size of the school, principals may also allocate funding to different departments.
## 2015-2016

**Sondage auprès des écoles élémentaires**

People for Education, champion de l'éducation à financement public, engage le dialogue et la recherche pour faire le lien entre une éducation solide et une société juste et prospère.

Avec l'aide des directrices et directeurs d'école de toute la province, nous menons des sondages annuels pour cerner les effets des changements de politiques et du financement sur les programmes et les ressources des écoles ontariennes. Nous publions les conclusions de nos sondages annuels dans le rapport *People for Education Annual Report on Ontario Schools*.

Chaque école participante recevra un exemplaire électronique de ce rapport.

*Veuillez remplir le sondage en ligne à :*
http://www.peopleforeducation.ca/research/school-surveys

*Veuillez soumettre vos réponses au plus tard le 20 novembre 2015.*

Si vous n'êtes pas en mesure de remplir le sondage en ligne, veuillez l'envoyer par la poste ou par télécopie à :

**People for Education, 641, rue Bloor Ouest, Toronto (Ontario), M6G 1L1**
**Téléc. : 416-536-0100**

Lorsque vous répondez aux questions concernant le personnel, veuillez indiquer le nombre **total** de postes en termes d'**équivalents à temps plein (ETP)**. Par exemple, un poste à temps plein ou deux postes à mi-temps = 1 ETP; quatre jours par semaine = 0,8 ETP; un poste à mi-temps = 0,5 ETP; un jour par semaine = 0,2 ETP, etc.
1. VUE D'ENSEMBLE DE L'ÉCOLE
Enseignants ou enseignantes : _______ total ETP
Directeur ou directrice : _______ total ETP

De combien d'emplacements scolaires la direction d'école est-elle responsable? #

Directeur adjoint ou directrice adjointe : _______ total ETP   □ aucun
Personnel de bureau : _______ total ETP   □ aucun
Dans quel type de milieu votre école est-elle située? □ urbain/banlieue   □ petite ville/rural

2. BIBLIOTHÈQUE
Comment votre bibliothèque est-elle dotée en personnel? (Cochez toutes les catégories pertinentes et, le cas échéant, précisez l’ETP.)
□ enseignant-bibliothécaire ou enseignante-bibliothécaire : _______ total ETP
□ bibliothécaire ou bibliothécaire : _______ total ETP
□ autre personnel enseignant □ bénévoles □ élèves □ autre

Pendant combien d'heures par semaine la bibliothèque est-elle ouverte? #
Si vous avez un enseignant-bibliothécaire ou une enseignante-bibliothécaire, pendant combien d'heures par semaine la bibliothèque est-elle ouverte sous sa responsabilité? #

3. ORIENTATION
Conseillers ou conseillères en orientation : _______ total ETP
Est-ce que vos conseillers et conseillères en orientation détiennent une Qualification additionnelle en orientation et formation au cheminement de carrière? □ oui   □ non

À quelle(s) tâche(s) estimez-vous que le personnel en orientation consacre le plus du temps passé avec les élèves et les autres membres du personnel? Veuillez classer les tâches suivantes dans l'ordre (de 1 = le plus de temps à 6 = le moins de temps):

_____ Appuyer la réussite scolaire des élèves
_____ Appuyer la planification de la transition des élèves
_____ Appuyer le raffinement et le développement de leur plan individuel Passeport pour ma réussite
_____ Appuyer les élèves relativement à leur santé mentale
_____ Réagir aux comportements d'élèves
_____ Collaborer avec l'équipe-école ou une unité administrative relativement à ces domaines

Des réussites ou des défis relativement à l'orientation à votre école?

4. PSYCHOLOGUES, TRAVAILLEURS SOCIAUX ET TRAVAILLEUSES SOCIALES, ORTHOPHONISTES ET TRAVAILLEURS ET TRAVAILLEUSES AUPRÈS DES JEUNES
Veuillez indiquer la situation qui s'applique à votre école en ce qui touche chacun des services suivants.
Psycologues : □ services non disponibles ou □ sur demande ou □ régulièrement à l'horaire
Travailleurs/travailleuses sociaux : □ services non disponibles ou □ sur demande ou □ régulièrement à l'horaire
Orthophonistes : □ services non disponibles ou □ sur demande ou □ régulièrement à l'horaire
Travailleurs/travailleuses auprès des jeunes : □ services non disponibles ou □ sur demande ou □ régulièrement à l'horaire

Des réussites ou des défis relativement à ces services?

5. ÉDUCATION ARTISTIQUE, ÉDUCATION PHYSIQUE ET SANTÉ
Enseignants ou enseignantes spécialistes pour la musique
(sans inclure le personnel itinérant) : _______ total ETP   □ aucun

Enseignantes ou enseignants/Instructrices ou instructeurs de musique itinérants : □ oui   □ non
Enseignantes ou enseignants spécialistes en arts visuels : _______ total ETP   □ aucun
Enseignantes ou enseignants spécialistes en art dramatique : _______ total ETP   □ aucun
Enseignantes ou enseignants spécialistes de l'éducation physique et santé : _______ total ETP   □ aucun
6. ÉDUCATION DE L'ENFANCE EN DIFFICULTÉ
Enseignants ou enseignantes de l’enfance en difficulté : _______ total ETP
Aides-enseignants ou aides-enseignantes de l’enfance en difficulté : _______ total ETP
Est-ce que la majorité de vos aides-enseignants et aides-enseignantes ont une qualification postsecondaire additionnelle en
éducation de l’enfance en difficulté? □ oui □ non
Nombre total d’élèves qui reçoivent une aide, quelle qu’elle soit, du service d’éducation à l’enfance en difficulté : #_______
Est-ce que tous les élèves identifiés reçoivent le soutien recommandé? □ oui □ non
Combien d’élèves attendent actuellement une évaluation?
#_______ pour un CIPR? #_______ pour un placement? #_______
Y a-t-il une limite quant au nombre d’élèves qui peuvent être évalués par année? □ oui □ non
Des réussites ou des défis relativement à l’éducation de l’enfance en difficulté?

________________________________________________________

7. ÉDUCATION DES PREMIÈRES NATIONS, DES MÉTIS ET DES INUITS
Votre école offre-t-elle des activités d’éducation des Autochtones? □ oui □ non
Si oui, lesquelles? (Cochez tout ce qui s’applique.)
□ perfectionnement professionnel du personnel sur les questions culturelles autochtones
□ programme de soutien culturel □ programme d’enseignement des langues autochtones
□ conférenciers ou conférencières autochtones invités □ consultation auprès de membres de la communauté
autochtone sur les priorités éducatives □ cérémonies □ programme d’études autochtones
□ autre (Veuillez préciser.) ____________________________
Un membre du personnel (autre que la direction ou la direction adjointe) est-il responsable de coordonner l’éducation des
Autochtones dans votre école? □ oui □ non
Si oui, combien de temps en ETP est alloué uniquement à ce poste? _______ ETP □ aucun
Si non, avez-vous accès à un membre désigné du personnel du conseil scolaire qui coordonne l’éducation des
Autochtones à votre école? □ oui □ non
Des réussites ou des défis relativement à ce domaine?

________________________________________________________

8. FONDS GÉNÉRÉS PAR L’ÉCOLE
Votre école (parents, élèves et/ou personnel) fait-elle des collectes
de fonds pour l’achat de ressources? □ oui □ non
Environ combien d’argent les parents, les élèves et le personnel recueilleront-ils en 2015-2016? _______ $
Votre conseil scolaire a-t-il des lignes directrices claires en ce qui concerne les activités de
financement des écoles? □ oui □ non
Est-ce que l’école demande aux parents de l’argent pour des sorties scolaires? □ oui □ non
pour des activités parascolaires? □ oui □ non
pour de nouvelles ressources pédagogiques? □ oui □ non
Est-ce que votre école dispense de frais ou subventionne les élèves qui ne peuvent pas payer? □ oui □ non

9. DOMAINES PLUS LARGES DE L’APPRENTISSAGE DES ÉLÈVES SOUTENUS PAR
VOTRE ÉCOLE
Cette année, l’école cherchera à offrir aux élèves des occasions de :
   Travailler avec un/une artiste ou une autre personne professionnelle de l’extérieur de l’école □ oui □ non
   Apprendre à jouer d’un instrument pendant les heures d’école □ oui □ non
   Participer à un spectacle/exposition (p. ex. : pièce de théâtre, danse, exposition d’art) □ oui □ non
   Participer à des sports organisés □ oui □ non
   Participer à des clubs scolaires □ oui □ non
   Participer à activités bénévoles à l’école
   (p. ex. : relations scolaires, sécurité, initiatives vertes) □ oui □ non
   Travailler dans un jardin de l’école ou de la communauté (p. ex. : jardin potager de l’école) □ oui □ non
   Autre: ____________________________

People for Education    Annual Report on Ontario’s Publicly Funded Schools 2016    25
Votre école a-t-elle un conseil d'élèves ou un comité dirigé par les élèves?  □ oui  □ non
Si oui, à quelle fréquence le conseil d'élèves ou le comité dirigé par les élèves participe-t-il à l’élaboration des politiques et à la prise de décisions à l’école?  □ souvent  □ parfois  □ presque jamais
Des succès ou des défis relativement aux domaines plus larges de l’apprentissage des élèves?

10. PARTENARIATS ÉCOLE-COMMUNAUTÉ
Les élèves ont accès à des occasions d’apprentissage continu grâce à des partenariats communautaires dans les domaines suivants (Cochez tout ce qui s’applique):

- Arts
- Affaires
- Santé et activité physique
- Environnement
- Sciences
- Technologie/Logiciels/Jeux électroniques
- Organisations locales/communautaires

Autre ______________________________

Un membre du personnel (autre que la direction ou la direction adjointe) est-il responsable d’assurer la liaison avec la communauté?  □ oui  □ non
Si oui, quel est le poste de ce membre du personnel? __________________________________________
Si oui, combien de temps en ETP est alloué uniquement à ce poste? ________ ETP  □ aucun

Des succès ou des défis relativement aux partenariats école-communauté?

COMMENTAIRES SUPPLÉMENTAIRES
Souhaitez-vous nous faire part de commentaires supplémentaires au sujet de votre école? Quels sont les principales réussites et/ou les principaux défis de votre école? Au besoin, veuillez joindre une feuille supplémentaire à ce formulaire.

2015-2016
Elementary School Survey

People for Education is a champion of publicly funded education – instigating dialogue and research to make the connection between strong education and a fair and prosperous society.

With the help of principals across the province, we use annual surveys to keep track of the effects of policy and funding changes on programs and resources in Ontario’s schools. We publish the results from our annual surveys in the People for Education Annual Report on Ontario Schools.

You can complete the survey online at: http://www.peopleforeducation.ca/research/school-surveys

Each participating school will receive an electronic copy of this report.

Please submit the survey by November 20th, 2015

If you cannot complete the survey online, please mail or fax the survey to:

People for Education, 641 Bloor St W., Toronto, Ontario, M6G 1L1
fax: 416-536-0100
web site: www.peopleforeducation.ca

Individual school responses will remain confidential. Only overall results will be published.

District School Board:

School:

School Identification Number:

Includes grades: to

Number of students:

School address:

City: Postal Code:

Phone: ( ) Fax: ( )

School email:

Contact person:

Please tell us the total number of staff positions, counted in full-time equivalents (FTEs). For example, one full-time or two half-time positions equal 1.0 FTE; if a person works 4 days a week, this equals 0.8 FTE; a half-time position equals 0.5 FTE; one day a week equals 0.2 FTE, etc.
1. SCHOOL OVERVIEW

Teachers: ______ total FTEs
Principal: ______ total FTEs  How many sites is the Principal responsible for? _________
Vice-principal: ______ total FTEs  □ none
Office Staff: ______ total FTEs  □ none
Which of the following best characterizes the location of your school? □ urban/suburban □ small town/rural

2. LIBRARY

How is your library staffed? (Mark as many as relevant and fill in FTE where applicable)
□ Teacher-Librarian: total FTEs ______  □ Library Technician: total FTEs ______
□ Other teaching staff  □ Volunteers  □ Students  □ Other ________________

How many hours per week is the library open? # __________
If you have a Teacher-Librarian, how many hours per week is the library open and staffed with the
Teacher-Librarian? # __________

3. GUIDANCE

Guidance Teachers: ______ total FTEs
Do your guidance teacher(s) have an Additional Qualification in Guidance and Career Education? □ yes □ no

In what area(s) do you feel your guidance teachers/ counsellors spend most of their time with students and staff? Please rank the
following (from 1 = most time spent; to 6 = least time spent).

_____ Supporting student academic achievement
_____ Supporting student transition planning
_____ Supporting refinement and development of their Individual Pathway Plan
_____ Supporting student mental health issues
_____ Responding to student behaviour
_____ Collaborating with school team or department(s) in relation to these areas

Any successes or challenges with guidance at your school? ________________________________

4. PSYCHOLOGISTS, SOCIAL WORKERS, SPEECH LANGUAGE PATHOLOGISTS & CHILD
AND YOUTH WORKERS

For each of the following, please check the situation that applies to your school:

Psychologists:  □ services not available  or  □ on call  or  □ regularly scheduled
Social Workers:  □ services not available  or  □ on call  or  □ regularly scheduled
Speech Language Pathologists:  □ services not available  or  □ on call  or  □ regularly scheduled
Child and Youth Workers:  □ services not available  or  □ on call  or  □ regularly scheduled

Any successes or challenges with Psychologists, Social Workers, Speech Language Pathologists, and Child and Youth Workers?

5. ARTS & HEALTH AND PHYSICAL EDUCATION

Specialist music teachers (not including itinerants): ______ total FTEs  □ none
Itinerant music teachers/instructors: □ yes □ no
Specialist visual arts teachers: ______ total FTEs  □ none
Specialist drama teachers: ______ total FTEs  □ none
Health and Physical Education (H&PE) teachers: ______ total FTEs  □ none
6. SPECIAL EDUCATION
Special Education teachers: _____ total FTEs
Special Education assistants: _____ total FTEs
Do the majority of your Special Education assistant(s) have an additional post-secondary qualification in Special Education? □ yes □ no

Total number of students who receive any assistance from the Special Education Department: #

Are all identified students receiving recommended support? □ yes □ no

How many students are currently waiting for assessment? # for IPRC? # for placement? #

Is there a restriction on the number of students who can be assessed per year? □ yes □ no

Any successes or challenges with Special Education?

7. FIRST NATIONS, MÉTIS & INUIT EDUCATION
Does your school offer any Aboriginal education opportunities? □ yes □ no

If yes, which of the following do you have: (CHECK ALL THAT APPLY)
□ PD for staff around Aboriginal cultural issues □ cultural support program □ Aboriginal language program
□ Aboriginal guest speakers □ consultation with Aboriginal community members about educational priorities
□ ceremonies □ Native Studies □ other (please specify): ________________________________

Do you have a designated staff member (other than principal and vice principal) who coordinates Aboriginal education in your school? □ yes □ no

If yes, what is the FTE allotted solely to this position? _____ FTE □ none.

If no, do you have access to a designated staff member at the board level who coordinates Aboriginal education in your school? □ yes □ no

Any successes or challenges with First Nations, Métis, and Inuit education?

8. SCHOOL-GENERATED FUNDS
Does your school (parents, students and/or staff) fundraise for learning resources? □ yes □ no

Approximately how much money will be fundraised by parents, students and staff in 2015/16? $ ___________

Does your school board have clear guidelines for school fundraising? □ yes □ no

Are parents asked for money for field trips? □ yes □ no

for any extra-curricular activities? □ yes □ no

for new learning resources? □ yes □ no

Do you waive/subsidize fees for students who can’t pay? □ yes □ no

9. BROADER AREAS OF STUDENT LEARNING SUPPORTED BY YOUR SCHOOL
This year the school will facilitate opportunities for students to:

Work with an artist or other professional from outside of the school □ yes □ no

Learn an instrument within school hours □ yes □ no

Participate in performance/exhibition (e.g. play, dance, art exhibition) □ yes □ no

Participate in organized sports □ yes □ no

Participate in school clubs □ yes □ no

Participate in school volunteer opportunities (e.g. school relations, safety, green initiatives) □ yes □ no

Work in school/community garden (e.g. school food garden) □ yes □ no

Other ____________________
Does your school have a student representative government or student-led committee?  □ yes  □ no
   If yes, how often does your school student representative government or student-led committee participate in school
   policy and decision-making?    □ often    □ sometimes    □ almost never

Any successes or challenges with broader areas of student learning? ____________________________

10. SCHOOL-COMMUNITY PARTNERSHIPS
Ongoing learning opportunities are provided for students through community partnerships in the following areas
(CHECK ALL THAT APPLY):

   Arts                              □ yes  □ no
   Business                          □ yes  □ no
   Health/ Physical activity         □ yes  □ no
   Environment                       □ yes  □ no
   Science                           □ yes  □ no
   Technology/Software/Gaming        □ yes  □ no
   Grass roots/Community organizations □ yes  □ no
   Other ___________________________ □ yes  □ no

Is there a staff member (other than the principal or vice-principal) who is responsible
for acting as a liaison with the community?  □ yes  □ no
   If yes, what is the position of the liaison with the community? __________________________
   If yes, what is the FTE allotted solely to this position? ______ FTE  □ none

Any successes or challenges with school-community partnerships? ____________________________

ADDITIONAL COMMENTS
Is there anything more you want to add or tell us about your school? What are the major successes and/or challenges in your
school? Please attach a separate sheet of paper if you need more space.

Lorsque vous répondez aux questions concernant le personnel, veuillez indiquer le nombre total de postes, en termes d’équivalents à temps plein (ETP). Par exemple, un poste à temps plein ou deux postes à mi-temps = 1 ETP; quatre jours par semaine = 0,8 ETP; un poste à mi-temps = 0,5 ETP; un jour par semaine = 0,2 ETP, etc.
1. VUE D’ENSEMBLE DE L’ÉCOLE
Directeur ou directrice d’école : _______ total ETP
Directeur adjoint ou directrice adjointe : _______ total ETP
Personnel de bureau : _______ total ETP  □ aucun
Dans quel type de milieu votre école est-elle située? □ urbain/de banlieue  □ petite ville/rural

2. BIBLIOTHÈQUE
Comment votre bibliothèque est-elle dotée en personnel? (Cochez toutes les catégories pertinentes et, le cas échéant, précisez l’ETP.)
□ enseignant-bibliothécaire ou enseignante-bibliothécaire : _______ total ETP
□ bibliothécaire ou bibliotechnicienne : _______ total ETP
□ autre personnel enseignant □ bénévoles □ élèves □ autre _________________.
Combien d’heures par semaine la bibliothèque est-elle ouverte? # ____________
Si vous avez un enseignant-bibliothécaire ou une enseignante-bibliothécaire, pendant combien d’heures par semaine
la bibliothèque est-elle ouverte sous sa responsabilité? # ____________

3. ORIENTATION
Conseillers ou conseillères en orientation : _______ total ETP
Est-ce que vos conseillers et conseillères en orientation détiennent une Qualification additionnelle en orientation et
formation au cheminement de carrière? □ oui □ non
À quelle(s) tâche(s) estimez-vous que le personnel en orientation consacre le plus du temps passé avec les élèves
et les autres membres du personnel? Veuillez classer les tâches suivantes dans l’ordre (de 1 = le plus de temps à 6 = le
moins de temps):
□ Appuyer et faciliter l’éducation coopérative et l’apprentissage par expérience des élèves
□ Appuyer la réussite scolaire des élèves
□ Appuyer la planification de la transition des élèves
□ Appuyer le raffinement et le développement de leur plan individuel Passeport pour ma réussite
□ Appuyer les élèves relativement à leur santé mentale
□ Réagir aux comportements d’élèves
□ Collaborer avec l’équipe-école ou une unité administrative relativement à ces domaines
Est-ce que les conseillers ou conseillères en orientation jouent un rôle de premier plan dans les domaines suivants?
Appuyer et faciliter l’éducation coopérative et l’apprentissage par expérience des élèves  □ oui □ non
Appuyer la réussite scolaire des élèves  □ oui □ non
Appuyer la planification de la transition des élèves  □ oui □ non
Appuyer le raffinement et le développement de leur plan individuel Passeport pour ma réussite  □ oui □ non
Appuyer les élèves relativement à leur santé mentale  □ oui □ non
Réagir aux comportements d’élèves  □ oui □ non
Collaborer avec l’équipe-école ou une unité administrative relativement à ces domaines  □ oui □ non
Des réussites ou des défis relativement à l’orientation à votre école?

4. PSYCHOLOGUES, TRAVAILLEURS SOCIAUX ET TRAVAILLEUSES SOCIALES,
ORTHOPHONISTES ET TRAVAILLEURS ET TRAVAILLEUSES AUPRÈS DES JEUNES
Veuillez indiquer la situation qui s’applique à votre école en ce qui touche chacun des services suivants.
Psychologues : □ services non disponibles ou □ sur demande ou □ régulièrement à l’heure
Trouveleurs/travaillleurs sociaux : □ services non disponibles ou □ sur demande ou □ régulièrement à l’heure
Orthophonistes : □ services non disponibles ou □ sur demande ou □ régulièrement à l’heure
Trouveleurs/travaillleurs auprès des jeunes : □ services non disponibles ou □ sur demande ou □ régulièrement à l’heure
Des réussites ou des défis relativement à ces services?

32 People for Education Annual Report on Ontario’s Publicly Funded Schools 2016
5. ÉDUCATION DE L’ENFANCE EN DIFFICULTÉ
Enseignants ou enseignantes de l’enfance en difficulté : _______ total ETP
Aides-enseignants ou aides-enseignantes de l’enfance en difficulté : _______ total ETP

Est-ce que la majorité de vos aides-enseignants et aides-enseignantes ont une qualification postsecondaire additionnelle en éducation de l’enfance en difficulté?  □ oui  □ non

Nombre total d’élèves qui reçoivent une aide, quelle qu’elle soit, du service d’éducation à l’enfance en difficulté : #_________

Est-ce que tous les élèves identifiés reçoivent le soutien recommandé?  □ oui  □ non

Combien d’élèves attendent actuellement une évaluation? #______ pour un CIIPR? #______ pour un placement? #______

Y a-t-il une limite quant au nombre d’élèves qui peuvent être évalués par année?  □ oui  □ non

Des réussites ou des défis relatifs à l’éducation de l’enfance en difficulté?

__________________________________________________

6. ÉDUCATION DES PREMIÈRES NATIONS, DES MÉTIS ET DES INUITS

Y a-t-il à votre école des élèves qui ont fréquenté une école des Premières Nations sur une réserve autochtone?  □ oui  □ non
Votre école offre-t-elle des activités d’éducation des Autochtones?  □ oui  □ non
Si oui, lesquelles? (Cochez tout ce qui s’applique.)
☐ perfectionnement professionnel du personnel sur les questions culturelles autochtones
☐ programme de soutien culturel ☐ programme d’enseignement des langues autochtones
☐ conférenciers ou conférencières autochtones invités ☐ consultation auprès des membres de la communauté
autochtone sur les priorités éducatives ☐ cérémonies ☐ programme pour inciter les élèves autochtones à poursuivre des études postsecondaires ☐ programme d’études autochtones
☐ autre (Veuillez préciser): ______________________________

Un membre du personnel (autre que la direction ou la direction adjointe) est-il responsable de coordonner l’éducation des Autochtones dans votre école?  □ oui  □ non
Si oui, combien de temps en ETP est alloué uniquement à ce poste? _________ ETP  □ aucun
Si non, avez-vous accès à un membre désigné du personnel du conseil scolaire qui coordonne l’éducation des Autochtones à votre école?  □ oui  □ non

Des réussites ou des défis relatifs à l’éducation des Autochtones?

__________________________________________________

7. FONDS GÉNÉRÉS PAR L’ÉCOLE

Votre école (parents, élèves et/ou personnel) fait-elle des collectes de fonds pour l’achat de ressources?  □ oui  □ non

Environ combien d’argent les parents, les élèves et le personnel recueilleront-ils en 2015-2016? _______ $

Votre conseil scolaire a-t-il des lignes directrices claires en ce qui concerne les activités de financement des écoles?  □ oui  □ non

À combien s’élèvent les frais liés aux activités étudiantes cette année (2015-2016)? _________ $

Votre école perçoit-elle des frais liés aux activités sportives?  □ oui  □ non
Si oui, veuillez indiquer la fourchette des frais (p. ex. : de 5 $ à 25 $): _________ $ à _________ $

Votre école perçoit-elle des frais pour les activités de laboratoire ou le matériel de classe?  □ oui  □ non
Si oui, veuillez estimer la moyenne des frais de laboratoire et de matériel qu’un élève aurait à payer: _________$ à _________$

Veuillez cocher, le cas échéant, les départements qui perçoivent des frais auprès des élèves:
☐ Mathématiques ☐ Sciences ☐ Anglais ☐ Français ☐ Sciences humaines
☐ Géographie ☐ Histoire/Sciences sociales ☐ Éducation physique/Santé ☐ Arts
☐ Autre ______________________

Est-ce que votre école dispense de frais ou subventionne les élèves qui ne peuvent pas payer?  □ oui  □ non
8. DOMAINES PLUS LARGES DE L’APPRENTISSAGE DES ÉLÈVES SOUTENUS PAR VOTRE ÉCOLE

Cette année, l’école cherchera à offrir aux élèves des occasions de :
- Travailler avec un/une artiste ou une autre personne professionnelle de l’extérieur de l’école  oui  non
- Apprendre à jouer d’un instrument pendant les heures d’école  oui  non
- Participer à un spectacle/une exposition (p. ex. : pièce de théâtre, danse, exposition d’art)  oui  non
- Participer à des sports organisés  oui  non
- Participer à des clubs scolaires  oui  non
- Participer à activités bénévoles à l’école (p. ex. : relations scolaires, sécurité, initiatives vertes)  oui  non
- Travailler dans un jardin de l’école ou de la communauté (p. ex. : jardin potager de l’école)  oui  non
- Autre :

Votre école a-t-elle un conseil d’élèves ou un comité dirigé par les élèves?  oui  non

Si oui, à quelle fréquence le conseil d’élèves ou le comité dirigé par les élèves participe-t-il à l’élaboration des politiques et à la prise de décisions à l’école?  souvent  parfois  presque jamais

Des succès ou des défis relatifs aux domaines plus larges de l’apprentissage des élèves?

9. PARTENARIATS ÉCOLE-COMMUNAUTÉ

Les élèves ont accès à des occasions d’apprentissage continu grâce à des partenariats communautaires dans les domaines suivants (Cochez tout ce qui s’applique) :
- Arts  oui  non
- Affaires  oui  non
- Santé/Activité physique  oui  non
- Environnement  oui  non
- Sciences  oui  non
- Technologie/Logiciels/Jeux électroniques  oui  non
- Organisations locales/communautaires  oui  non
- Collèges et universités  oui  non
- Autre

Un membre du personnel (autre que la direction ou la direction adjointe) est-il responsable d’assurer la liaison avec la communauté?  oui  non

Si oui, quel est le poste de ce membre du personnel? ________________________________________

Si oui, combien de temps en ETP est alloué uniquement à ce poste? ________ ETP  aucun

Des succès ou des défis relatifs aux partenariats école-communauté?

Please tell us the total number of staff positions, counted in full-time equivalents (FTEs). For example, one full-time or two half-time positions equal 1.0 FTE; if a person works 4 days a week, this equals 0.8 FTE; a half-time position equals 0.5 FTE; one day a week equals 0.2 FTE, etc.
1. SCHOOL OVERVIEW

Principal: ______ total FTEs
Vice-principal(s): ______ total FTEs
Office Staff: ______ total FTEs □ none

Which of the following best characterizes the location of your school? □ urban/suburban □ small town/rural

2. LIBRARY

How is your library staffed? (Mark as many as relevant and fill in FTE where applicable)

□ Teacher-Librarian: total FTEs ______ □ Library Technician: total FTEs ______
□ Other teaching staff □ Volunteers □ Students □ Other ______

How many hours per week is the library open? ______

If you have a Teacher-Librarian, how many hours per week is the library open and staffed with the Teacher-Librarian? ______

3. GUIDANCE

Guidance Counsellors: ______ total FTEs

Do your guidance counsellor(s) have an Additional Qualification in Guidance and Career Education? □ yes □ no

In what area(s) do you feel your guidance counsellor(s) spends most of their time with students and staff? Please rank the following (from 1 = most time spent; to 7 = least time spent):

_____ Supporting and facilitating co-operative education and experiential learning for students
_____ Supporting student academic achievement
_____ Supporting student transition planning
_____ Supporting refinement and development of their Individual Pathway Plan
_____ Supporting student mental health issues
_____ Responding to student behaviour
_____ Collaborating with school team or department(s) in relation to these areas

Does the guidance counselor(s) play a primary role in supporting the following areas?

Supporting and facilitating co-operative education and experiential learning for students □ yes □ no
Supporting student academic achievement □ yes □ no
Supporting student transition planning □ yes □ no
Supporting student refinement and development of their Individual Pathway Plan □ yes □ no
Supporting student mental health issues □ yes □ no
Responding to student behaviour □ yes □ no
Collaborating with school team or department(s) in relation to these areas □ yes □ no

Any successes or challenges with guidance at your school? ____________________________

4. PSYCHOLOGISTS, SOCIAL WORKERS, SPEECH LANGUAGE PATHOLOGISTS & CHILD AND YOUTH WORKERS

For each of the following, please check the situation that applies to your school:

Psychologists: □ services not available or □ on call or □ regularly scheduled: ______ hours/month
Social Workers: □ services not available or □ on call or □ regularly scheduled: ______ hours/month
Speech Language Pathologists: □ services not available or □ on call or □ regularly scheduled: ______ hours/month
Child and Youth Workers: □ services not available or □ on call or □ regularly scheduled: ______ hours/month

Any successes or challenges with Psychologists, Social Workers, Speech Language Pathologists, and Child and Youth Workers?

5. SPECIAL EDUCATION

Special Education teachers: ______ total FTEs
Special Education assistants: ______ total FTEs

Do the majority of your Special Education assistant(s) have an additional post-secondary qualification in special education? □ yes □ no
6. FIRST NATIONS, MÉTIS & INUIT EDUCATION

Have any students at your school come from a First Nations school on a reserve? □ yes □ no

Does your school offer any Aboriginal education opportunities? □ yes □ no

If yes, which of the following do you have? (CHECK ALL THAT APPLY)
- PD for staff around Aboriginal cultural issues
- cultural support program
- Aboriginal language program
- Aboriginal guest speaker
- consultation with Aboriginal community members about educational priorities
- ceremonies
- post-secondary outreach with a focus on Aboriginal students
- Native Studies
- other (please specify): ___________________________

Do you have a designated staff member (other than principal and vice-principal) who coordinates Aboriginal education in your school? □ yes □ no

If yes, what is the FTE allotted solely to this position? _______ FTE □ none

If no, do you have access to a designated staff member at the board level who coordinates Aboriginal education in your school? □ yes □ no

Any successes or challenges with First Nations, Métis and Inuit education? ________________________________

7. SCHOOL-GENERATED FUNDS

Does your school (parents, students and/or staff) fundraise for learning resources? □ yes □ no

Approximately how much money will be fundraised by parents, students and staff in 2015/16? $__________

Does your school board have clear guidelines for school fundraising? □ yes □ no

How much is the Student Activity Fee this year (2015/16)? $__________

Do you have athletic fees? □ yes □ no

If yes, what is the range? (e.g. $5 to $25) $__________ to $__________

Do you have fees for labs or materials for any classes? □ yes □ no

If yes, please estimate the average total lab/material fees a student might pay: $__________ to $__________

Please check the departments, if any, where fees are charged to students:
- Mathematics □ Science □ English □ Humanities □ Geography □ History/Social Studies
- Physical Education/Health □ Art □ Other ________________________________

Do you waive/subsidize fees for students who cannot pay? □ yes □ no

8. BROADER AREAS OF STUDENT LEARNING SUPPORTED BY YOUR SCHOOL:

This year the school will facilitate opportunities for students to:

ADDITIONAL COMMENTS
Is there anything more you want to add or tell us about your school? What are the major challenges and/or successes in your school? Please attach a separate sheet of paper if you need more space.

NOTES

5. Ibid.

7. Ibid.

9. Ibid.

10. Ibid.

11. Ibid. pg. 605.

19 English Translation: [There are more children in need, but services are not growing].

26 Ibid.

27 Ibid.

34 Ibid.

48 Ibid.

61 English Translation: [We have several students with behavioral problems. All of our energy is often focused on them. This is the same for psycho-educational evaluations. We could run ten more students through evaluations and I believe that we would still have the diagnostic tools in learning and behaviour that would lead to placements].

64 Ibid.

65 Elementary School, Toronto DSB.

72 Ibid.

75 Ibid.

79 Ibid.

80 English Translation: [We would love to have resource people who come to the ceremonies and serve as mentors to our Aboriginal youth, Métis, and the general population].

81 Secondary School, Durham CDSB.

85 Ibid.
